

INDEX TO VOLUME 9

The star (*) preceding the page number indicates an original article in the Archives. Author entries are made for original articles, correspondence and society transactions. Subject entries are made for all articles. Book Reviews and Obituaries are indexed under these headings in their alphabetical order under the letters B and O, respectively.

	PAGE
Abdomen , giant cyst of abdominal wall; urachus cyst or enterocystoma?.....*	473
Abortion : See also under Bacteria and Infanticide in Warsaw since World War	123
in cattle, fungi as cause of.....	595
Abscess of lung, experimental production. . .	911
retropharyngeal, in infants and children..	110
Acetylene tetrachloride , acute yellow atrophy of liver due to.....	1276
Achondroplasia ; changes in vertebral column of new-born in chondrodystrophia.....	1087
Acid , Carbolic: See Phenol	
Hydrocyanic: See under Cyanides	
Intoxication: See Acidosis	
lactic, variations of blood in Basedow's disease during rest and work.....	102
lactic, in pulmonary tuberculosis.....	913
Prussic: See under Cyanides	
Acid-Base Equilibrium of blood in eclampsia	1260
Acidosis ; acid intoxication, particularly lactic acid, in pulmonary tuberculosis.....	913
Acromegaly studies.....	912
Actinomyces necrophorus , human infection with; bacteriologic and pathologic report of 2 cases terminating fatally.....*	843
Adenofibrosarcoma of breast.....	948, *1007
Adenoma of coll glands.....	601
pseudo-adenoma and mastoma of mammary gland	925
testicular tubular, of ovary; etiologic relation to embryonic tubular vestiges and spontaneous sex reversal of female gonads	*31
Adenomyolipoma of fallopian tube.....	107
Adenomyosarcoma , embryonal, of kidney in adult	1083
Adenomyosis of urinary bladder; demonstration of continuity between a glandular duct and a blood vessel.....	134
Adenomyositis : See under Uterus	
Adrenals : See Suprarenals	
Agglutinins , Brucella abortus in milk supply as source of, in human sera.....	114
iso-agglutinins in cattle.....	1267
removal of agglutinins from sensitized motile bacteria.....	596
studies on isohemagglutination.....	1123
Agglutinin produced from red corpuscles by bacterial ferment.....	118
Albumin , antigenicity of crystalline egg albumin	1106
reserve of liver.....	587
Alimentary Tract : See Digestive Tract	
Alkalosis , experimental, and gaseous exchange in man.....	110
in persistent hypertension.....	1300
Allergy : See Anaphylaxis and Allergy	
Almqvist, A. : Giant cyst of anterior abdominal wall; urachus cyst or enterocystoma?	*473
Alter, N. M. : Histologic study of sacrococcygeal chordoma.....	1119
Neoplasm derived from mucus-secreting cylindric cells of lining of urinary tract	1121
Aluminum , metabolism of.....	738

	PAGE
Alymphocytosis , total.....	1253
Amboceptors , effect of roentgen rays on specific immune bodies.....	1270
Amebiasis in New York City.....	740
Amenorrhea and corpus luteum.....	724
Ammonia , action of, on complement.....	753
Amyloidosis , unusual amyloid deposits.....	108
Anaphylaxis and Allergy: allergic purpura active and passive anaphylaxis with synthetic sugar-proteins.....	938
cottonseed and kapok sensitization.....	115
diffusibility of calcium in allergic disorders	946
histamine susceptibility and anaphylactic reactions	601
immunologic aspects of sexual cycle; anaphylactic studies with mammalian follicular fluid	*1
incubation period in passive sensitization with homologous anti-serum.....	1293
intracutaneous reactions to injections of pharmacologic substances during chill and fever.....	*393
production of allergic inflammation in kidney	937
sensitization from repeated transfusion of paternal blood of same group.....	754
skin reactions and blood chemistry in sensitized persons and persons with diseases of the skin.....	*288
skin reactions, blood chemistry and physical status of "normal" men and clinical patients.....	*151
studies in hypersensitiveness.....	1105
systemic histamine-like reactions in allergy due to cold.....	99
Anemia , ineffectiveness of high doses of iron in.....	100
infectious: See also Bartonella	
infectious, of rats, influence of Jensen's sarcoma on.....	593
infectious; problem of Bartonella infection in rats.....	593
pernicious, changes in trypanocidal property of serum in.....	1246
produced on diets of whole milk and iron due to copper deficiency.....	100
sickle cell, general and historical review.....*	876
spinal cord changes in.....	920
virus of rat anemia and its transmission by rat louse, Polyplax spinulosa.....	1098
Anesthesia , spinal, chemistry and cytology of spinal fluid after injection of procaine hydrochloride for.....	139
tribromethanol, death from.....	759
Aneurysm , mycotic, of superior mesenteric artery complicating bacterial endocarditis	*648
of aorta rupturing into superior vena cava	951
of aortic arch following wound with shrapnel	125
of bronchial artery.....	951
of splenic artery.....	1252
traumatic	1259
Angioma , congenital, capillary, of parotid gland; consideration of similar cases in literature	*820
racemose, of brain with varix formation and rupture.....	1091
Anomaly : See under Ductus Arteriosus; Genito-Urinary Tract; Liver; Lung; Pancreas; Testicle; Twin; etc.	
Anthraxosis : See Pneumoconiosis	
Anthrax , carbohydrate fermentation, nitrogenous metabolism and catalase production by variants of bacillus anthracis	743

influence of blockade of reticulo-endothelial system on formation of antibodies	1269	Atherosclerosis of coronary arteries of heart	1095
influence of blockade of reticulo-endothelial system on antibody formation	618	Athletics, complete tear of right subclavian artery in training for sports	127
influence of reticulo-endothelial system on infection and antibody formation with vaccine virus	1270	Atophan and icterus	759
mechanism of antibody action in relation to phagocytosis and other surface phenomena	1292	Autopsies in medical education and study	129
normal human antibody curve	1271	Avitaminosis: See Vitamin deficiency	
passage of antibodies into aqueous humor and its relation to form of solution	940	B-C G: See under Tuberculosis	
passage of, into intra-ocular fluids and spinal fluid and effect of theophylline on it	753	Bachem, A.: Straight and diffuse penetration of ultraviolet light into human skin	1302
permeability of respiratory tract to antigens	1104	Bacilluria: See under Urine	
reticulo-endothelial system and antibody production	1105	Bacteria: See also Anthrax bacillus; Diphtheria bacilli; Tubercle bacilli; etc.	
serological differentiation of steric isomers (antigens containing tartaric acids)	750	Abortus: See also Undulant Fever	
Antopol, W.: Anomalous ramifications of coronary arteries	853	abortus and mellitense group; significance of Brucella abortus agglutinins in human serum	598
Aorta, atresia in adult	1092	abortus; Brucella abortus in milk as source of agglutinins in human sera	114
lesions of, in rheumatic fever	730	abortus; Brucella mellitensis causing vegetative endocarditis	933
of rabbit, effect of ergosterol on	101	abortus, infection of man	936
tuberculosis of	918	absorption of ultraviolet light by	1302
Aortitis, syphilitic, involvement of medium-sized arteries associated with	104	acid-fast, influence of iron on pigmentation of	111
Apparatus, double-purpose hematocrit	*89	aerogenes capsulatus; bacillus perringtonis antitoxin and experimental intestinal obstruction	579
for bilateral thoracography	761	aerogenes capsulatus: effect of certain toxic substances in bacterial cultures on intestinal movement; effect of physiologically active substances of gas bacillus on movement of intestine of intact animal	*694
Appendix, carcinoid tumors of	917	Aertrycke: See Bacteria sulpestifer	
epithelial tumors of	1272	Brucella abortus infections, bacteriologic and serologic observations	1292
obliteration of vermiform appendix	916	calorimetry; description of differential microcalorimeter	741
Aqueous Humor, passage of antibodies into aqueous humor and its relationship to form of solution	940	calorimetry; relationship of heat production to phases of growth of bacteria	742
passage of antibodies into intra-ocular fluids and spinal fluid and effect of theophylline on it	753	clostridium bifermentans, strain variations in	111
Arachnoid cell, proliferation of, in and around dura	919	colon; influence of environmental factors on behavior of escherichia coli and its special bacteriophage in urine	1116
Arnold, L.: Influence of climate and diet on gastro-intestinal diseases	1302	culture: See also under names of Bacteria culture; continuous method of culturing bacteria for chemical study	113
Intermittent fecal elimination of bacteria in chronic biliary carriers	960	culture media; effect of certain toxic substances in bacterial cultures on intestinal movement; effect of physiologically active substances of gas bacillus on movement of intestine in intact animal	*694
Arteriosclerosis: See also Atherosclerosis		culture mediums; dextrose in synthetic mediums for tubercle bacilli	760
primary, of pulmonary artery	1094	culture; sodium chloride media for separation of certain gram-positive cocci from gram-negative bacilli	112
Artery, carotid, reaction of endothelium of rabbit carotid artery after double ligation	1257	Ducrey: See under Chancroid	
coronary, acute obstruction of	915	enterococci, aesculin fermentation and hemolysis by enterococci	745
coronary, anomalous ramifications of	853	flavobacteria and periodic ophthalmia in horses	1262
coronary; atherosclerosis of coronary arteries of heart	1095	nature of bacterial resistance to bacteriophage	744
mesenteric, superior, mycotic aneurysm of, complicating bacterial endocarditis	*648	Pasteurella; serological relationships of 26 strains of Pasteurella	940
pulmonary, carbon tetrachloride poisoning with macroscopic fat in	1276	Perringtons: See Bacteria aerogenes capsulatus	
pulmonary, occlusion of, with leiomyoma of endocardium	734		
pulmonary, primary arteriosclerosis of	1094		
significance of finely granular calcium in arterial media	1090		
splenic, aneurysm of	1252		
subclavian, right, complete tear of, in training for athletic sports	127		
Arthritis, skin hypersensitiveness in rheumatic fever and chronic arthritides to filtrates, autolysates and bacterial suspensions of streptococci	115		
traumatic; histologic changes in hyaline cartilage	921

Medical Museum, Modern Development, Organization and Technical Methods Based on a New System of Visual Teaching; S. H. Daukes.....	620
Molecular Physics in Relation to Biology. Report of Subcommittee on Molecular Physics of National Research Council.....	964
Pathology of the Eye; J. S. Friedenwald.....	1139
Penicillia; C. Thom, assisted by M. R. Church, O. E. May and M. A. Raines.....	1307
Principles and Practice of Electrocardiography; C. J. Wiggers.....	778
Principles of Bacteriology and Immunity; W. W. C. Topley and G. S. Wilson.....	1306
Right Honourable Sir Thomas Clifford Allbutt, K.C.B., M.A., M.D., F.R.C.P., F.R.S., Hon. M.D., D.Sc., D.C.L., LL.D.; Sir Humphry Davy Rolleston.....	965
Selected Readings in Pathology from Hippocrates to Virchow; E. R. Long.....	623
Tularaemia: History, Pathology, Diagnosis and Treatment; W. M. Simpson.....	621
Books Received.....	146, 624, 1308
Botulism from canned onions.....	1101
outbreak due to home-canned string beans	113
Brain, abnormality of cerebrum and leptomeninges stimulating an intracranial tumor	916
angioma (racemose) of brain with varix formation and rupture.....	1091
blood supply, relationship of cervical sympathetic nerves to.....	1077
cholesteatoma of third ventricle causing diencephalic autonomic epilepsy.....	918
gliomas of pons; pathologic study and classification of 25 cases.....	*779

Brain—Continued

	PAGE
hemorrhage at birth, late death from....	725
hemorrhage from venous and capillary stasis	1081
lesions of midbrain and diabetes insipidus	1244
light as a factor in impregnation of brain sections with ammoniacal silver salts	608
oligodendrogliomas of.....	1109
origin of hypophyseal-subthalamic syndrome	736
pressure in: See under Cranium	
sarcomatosis, intracranial, of leptomeningeal origin	921
teratoma and teratoid tumors of.....	*1207
trauma, structural changes following.....	920
tumor, origin of oligodendroglioma in cerebral tumors.....	919
tumor, spontaneous intracranial hemorrhage from a vascular tumor.....	1081
Branch, A.: Allergic, anaphylactic and immune reactions following inoculation of guinea pigs with heat killed tubercle bacilli	1305
Branchial apparatus.....	922
Brandes, W. W.: Effect of experimental hyperthyroidism and inanition on heart, liver and kidneys.....	*445, 617
Malignant ulcerative endocarditis of pulmonary valve	619
Breast, adenofibrosarcoma of.....	*948, *1007
adenoma, pseudo-adenoma and mastoma of	925
hypertrophy (gynecomastia).....	736
lymphogranulomatosis of mammary gland tumors, benign, of female breast.....	1082
